

SENSITRON QUALITY POLICY

Vision

Be recognized as the best company in Customer driven experience in gas detection.

Mission

For the safety of people and environments: We don't compromise.

The Vision and Mission that have been chosen at Sensitron describe the path the company intends to take in the coming years. The growth of the facility is enabled by several important factors, such as the guarantee of a quality product that meets the applicable mandatory requirements, the presence of knowledgeable and knowledgeable staff who participate in continuous improvement, and customer care and satisfaction.

To maintain these factors and thus ensure business growth, Sensitron is committed to:

- Enhance staff input in achieving objectives, promoting direct and active involvement;
- Design and produce products that comply with applicable mandatory requirements and customer requirements;
- Optimize each process by reducing waste and waste, creating as much value as possible;
- Ensure continuous improvement by setting measurable targets for each process, discussed during management review;
- Maintain strong relationships with suppliers and third parties, including through annual visits;
- Promote dissemination and training activities;
- Maintain a focus on environmental sustainability principles;
- Maintain attention to occupational health and safety issues;

Management is committed to ensuring that this Policy is understood, shared, implemented and implemented by all its employees and collaborators.
