

SENSITRON QUALITY POLICY

Vision

Be recognized as the best company in Customer driven experience in gas detection.

Mission

For the safety of people and environments: We don't compromise.

The Vision and Mission chosen by Sensitron describe the path that the company intends to take in the coming years. The growth of the organisation is enabled by a number of important factors, such as the guarantee of a quality product that complies with applicable mandatory requirements, the presence of knowledgeable and competent staff who participate in continuous improvement, and a focus on the customer and customer satisfaction.

In order to maintain these factors and thus ensure the company's growth, Sensitron is committed to:

- Enhance the contribution of staff in achieving objectives, encouraging direct and active involvement;
- Design and manufacture products that comply with applicable mandatory requirements and customer requirements;
- Optimise every process by reducing waste and scrap, creating value wherever possible;
- Ensure continuous improvement by setting measurable targets for each process, discussed during management review;
- Maintain strong relationships with suppliers and subcontractors, including through annual visits;
- Promote dissemination and training activities;
- Maintain focus on the principles of environmental sustainability;
- Maintain focus on occupational health and safety issues;

Management undertakes to ensure that this Policy is understood, shared, implemented and enforced by all its employees and collaborators.
